STOP THE STEAL CALIFORNIA WEB SITE GOES LIVE

State Senate Pro Tem Emeritus Don Perata (ret.) said today that the Stop the Steal California Committee was “open for business” with the launch of the web site and social media accounts.

<https://stopthestealcalifornia.com/> is officially up and running and will serve as the Committee’s virtual headquarters for its campaign to oppose the pending recall of Governor Gavin Newsom.

Perata also promised a vigorous social media advocacy via the following: : [Twitter](#), [Instagram](#) and [Facebook](#)

“It’s time the people spoke up for our Governor. We’re a citizen’s group that’s grateful for his strong leadership getting us through the pandemic in the face of the political threats of a recall,” Perata noted.

Perata again noted that a special election some six months before the regularly scheduled 2022 election would cost between \$75-100 million.

“Where do they want that money to come from? Cut back on public safety, schools or senior care? Why waste taxpayers time and money,” Perata concluded.
